SECTION-B

(Grammar & Writing)

6. Read the passage and answer the question:

Koalas live in eastern Australia, where the eucalyptus trees, they love, are most plentiful. Experts have warned Australian lawmakers that the population of tree-dwelling animals is plummeting, with no sign of relief. Upon receiving advice from the Threatened Species Scientific Council, Minister Tony Burke listed the Koala, as a threatened species, under the EPBC Act. Research conducted by the Australian Koala Foundation strongly suggests the Koala’s conservation status should be upgraded to ‘CRITICALLY --ENDANGERED’ in the South East Queensland Bioregion.

Koalas are in a serious decline suffering from the effects of habitat destruction, domestic dog attack, bush fires and road accidents. Their numbers have dropped by as much as 95 percent since the 1990s.

There are four states where Koalas are found in the wild---Queensland, New South Wales, Victoria and South Australia---and each state has its own legislation.

a) Fill in the blanks: 7

1. Koalas are found in
2. The numbers of Koalas have dropped by.....
